Time Is On My Side

How adaptive wear helped a father and daughter tune into the rhythm of life

Kirsten's 72-year-old father, Iain, lives with Alzheimer's and loves to listen to music. "He listens to everything from the Rolling Stones to Pavarotti," she says. Fortunately for Iain, scientific studies suggest his habit can help relieve stress, agitation and anxiety. When Kirsten listens in with him, her nerves as a loving caregiver get soothed as well. Since discovering Silverts, she's found the gift of listening to more music during her daily visits to his nursing home. "When getting dressed, it's less of a struggle, so I have more time to enjoy with him," she says. "If I had known about these clothes while I was caring for him at home, it would've made a world of difference."
