everyday items for accessible living

April 28, 2022
We know that nobody's day is the same and that every person has different experiences and preferences.

That's why we are creating an online store that reviews everyday products based on the real experiences of individuals with physical disabilities.
PLEASE NOTE...

We are not medical professionals. Nothing in this session or on our website should be taken as medical advice. Always consult your healthcare professional for advice or questions regarding your health.

We are individuals who have physical disabilities or have loved ones with physical disabilities. We want to share real insights and experiences into products that might be of particular use to other individuals who have ataxia or other physical disabilities.

We have not been paid to promote any products in this presentation. However, if you choose to purchase a product through the links on our website, we may receive a small commission due to our status as an Amazon Associate.
I was trying to find out the closest way to approximate how the average able-bodied person brewed their coffee, instead of first trying to think of what I ultimately wanted.

And I wanted coffee.

Aekey Automatic Toothpaste Dispenser & Toothbrush Holder

Review by Ericka
Cost: ~ $25
Visit product on our website

Pros:
- Insert and push for toothpaste
- Can be fixed to the wall at any height
- No wall damage (no screws, nails)
- Cubby/drawer, magnetic cups

Cons:
- Need to put toothbrush into small hole
- Might need assistance with installation

Petlibro Automatic Pet Feeder

Review by Liam
Cost: ~ $70
Visit product on our website

Pros:
- Saves time / attention
- Programmable feeding times / amounts
- Lid is “easy” to get off / put back on (might be difficult for some)

Cons:
- Buttons small
- Can be difficult to program or fill from a wheelchair if it’s on the floor
- Display locks / turns off after a short amount of time
- Still need to fill the large storage container

[Recording from pet feeder says] "Here you go, here, come here boy"
Redragon K552 Mechanical Keyboard

Review by Liam
Cost: ~ $30
Visit product on our website

Pros:
- Sound with each pushed key
- The fact that it is a little harder to press the keys cuts down on pressing keys by accident
- It is backlit, so keys are easier to see
- Keys have plenty of space between them

Cons:
- It has a long wire
- Since the keys are a bit tougher to press, fingers work a little harder which may slow down typing.

SpillNot Drink Carrier
Review by Hannah
Cost: ~ $20
Visit product on our website

Hannah’s story.

“I had a mission every morning – chase my 5 year-old son to drink water. Because of my Ataxia issue... it became mission impossible. I gave up.”

Using the SpillNot
Reacher-Grabber

Review by Hannah

Cost: ~ $15 to $30

Visit product on our website

Pros:
- You can rotate it 180 degrees and use it both outdoors or around the house to pick up items from the top shelf, the floor, behind the furniture – or even trash!
- I like this grabber because it is my extended hand. It has the same flexibility but longer :)

Cons:
- One grabber costs between $15 and $35. While the quality is good and sturdy, I wish it could be a little cheaper.
