

MASSACHUSETTS
GENERAL HOSPITAL

NEUROLOGY

The Department of Neurology at Massachusetts General Hospital is looking for people to participate in a remote research study to develop measurement technologies that can help improve clinical trials in ataxias

About the study:

The study involves 1 telephone call, 1 study appointment (completed remotely via Zoom video conference call), and twice-per-week computer tasks at home for one month. Total expected participation time would be about 5 hours: 1 hour per week for 4 weeks, and 1 hour per Zoom appointment. The study team will ship all the supplies needed to complete the study to your home address. You will be compensated for participating.

Mass General Brigham IRB

APPROVAL EFFECTIVE DATE

3/31/2022

No in-person visits necessary

Eligibility: To participate, you must meet the following criteria:

1. Have one of the following diagnoses:
Spinocerebellar Ataxia, other ataxia diagnoses, possible or probable Multiple System Atrophy, or be a healthy control
2. Be a native English speaker
3. Be at least 18 years of age

If you would like to learn more about the study or if you're interested in participating, please reach out to the Study Coordinator, Nicole Eklund, at **(617)-726-7909** or neklund@mgh.harvard.edu
