

Pioneer SCA3 Translational Research Award

Introduction

The National Ataxia Foundation (NAF) is a patient-facing nonprofit organization established in 1957 to accelerate the development of treatments for ataxia, while working to improve the lives of those living with ataxia. This continues to be at the heart of the organization today. NAF is a world leader in the ataxia research field, using national and global collaboration to further research efforts. In its continuing efforts to find the causes, treatments, and cures for ataxias, NAF provides limited, short-term financial support of ataxia research through its annual Research Grant Program.

Grant Description

The Pioneer SCA3 Translational Research Award is annually granted to independent researchers to support outstanding research proposals that aim to make significant advancements in the development of treatments and/or improvements to patient care for Spinocerebellar Ataxia Type 3 (SCA3). Proposals may incorporate other forms of ataxia but must have a predominant focus on SCA3 translational or clinical research.

Funding Period and Amount

This 1-year grant, beginning March 1, 2025 to February 28, 2026, provides \$100,000 in research funding that can be used to support direct research expenses. No more than 50% of the grant can be used to support personnel costs. Indirect costs and cost sharing are prohibited from being applied to NAF grants. No-cost extensions (NCE) will be considered for extenuating circumstances and are subject to approval by NAF.

Important Dates: All documents due by 11:59 pm Eastern time zone on the dates listed.

Grant Submissions	Open Date	Deadline	Decision Notification
Letter of Intent	June 28, 2024	September 6, 2024	October 11, 2024
Grant Application	October 11, 2024	December 2, 2024	February 2025

Eligibility & Guidelines

1. Applicants must have completed their post-doctoral training and have a full-time appointment as a faculty member, clinical fellow, or senior scientist at a research institution.
2. Non-U.S. citizens are eligible to apply for a NAF grant award.
3. Grant applications are accepted from U.S. and international institutions.
4. Individuals are ineligible if they were the lead PI on an awarded NAF grant within the past two fiscal years.
5. Applicants are only eligible to submit one application per year. Applicants should select the grant program that best suits their current position and proposal.

Application Instructions

1. **Create proposalCENTRAL Account.** NAF uses proposalCENTRAL online grant management system to facilitate Letter of Intent and grant application submissions. Use the following weblink to create an account: <https://proposalcentral.com>
2. **Prepare and Submit Letter of Intent using proposalCENTRAL portal by 11:59pm ET, September 6, 2024.** All applicants are required to submit a Letter of Intent using the proposalCENTRAL portal that will undergo competitive review. The purpose of the LOI is to evaluate whether the outlined research proposal (1) aligns with NAF's mission and (2) demonstrates sufficient scientific rigor and ataxia relevance to merit full application review by NAF's review committee. Depending on the number of applicants per year, the top 30-50% scoring LOIs will be invited to submit a full grant application. Applicants will be notified if their LOI has been selected for grant submission by October 11, 2024.

LOI Required Documents: See more detailed instructions on proposalCentral. All sections submitted via proposalCENTRAL

- **Statement of Need:** Identify the gap this proposal addresses (*4 sentences or less*).
- **Impact:** Describe the potential impact that your proposal may have on understanding ataxia and/or supporting/treating individuals with ataxia (*4 sentences or less*).
- **Specific Aims:** NAF recommends following the [NIH Specific Aims Guidelines](#).
- **Biosketch:** NAF recommends following the [NIH Biosketch Guidelines](#).

3. **If you are invited to apply following LOI review, prepare and submit all grant materials using proposalCENTRAL portal by 11:59 pm ET, December 2, 2024.** Complete instructions on grant materials are listed in proposalCENTRAL. A prospective fellow must have primary responsibility for the writing and the preparation of the Fellowship application, with the understanding that the mentor will play a significant part in providing guidance to the applicant. Briefly, complete applications will include the following attachments:

Grant Required Documents: All sections submitted via proposalCENTRAL.

- Personal Statement
- Biosketch
- Scientific Abstract
- Lay Summary
- Specific Aims
- Background and Significance
- Preliminary Studies
- Research Plan
- Budget Details
- References

4. **Notification of Funding Decision:** Written notification of funded and non-funded proposals will be emailed to all applicants by the end of February 2025. *Please do not call or email NAF about the status of your grant.*

For any questions about the LOI or Grant Application Process, please contact Aimee Alcott at Aimee@ataxia.org.

NAF Grant Terms and Conditions

Review Process

All applications are evaluated by a review committee, selected by NAF's Chief Scientific Officer. The review committee scores and prioritizes all grants received by the deadline and make funding recommendations. The NAF Board of Directors considers the recommendations and make the final approval and funding determinations. Funding of awards is based on the availability of funds, the priority score assigned to each application, the relevance to ataxia, and innovation of the research project. Applications with high scores in relevance to ataxia and scientific merit will receive higher priority.

Disbursement of Funds

Awards are for one year only. Checks or electronic transfers will be issued by March 31st and sent directly to the institution of the funded researcher named in the application. Electronic payment is preferred.

Change in Status of Awarded

Awards are to remain solely with the designated awardee and may not be transferred to any other personnel. If a recipient decides to discontinue the project, the award will be terminated immediately, and all pro-rated funds shall be returned to NAF. If an investigator changes institutions, the award may be transferred, contingent upon the successor institution's commitment to support the research for the full remaining term of the award. No-cost extensions (NCE) will be considered for extenuating circumstances and require approval from NAF's research director. Please submit requests for an NCE to aimee@ataxia.org.

Publications

When a paper or poster is published or presented before a scientific organization by an awardee, based on the work supported by an NAF grant, an electronic copy of the paper or a description of the presentation should be sent to the National Ataxia Foundation. All papers, posters and press releases shall carry an acknowledgement line to the National Ataxia Foundation. In addition, a copy of any press release regarding the study funded by NAF should also be e-mailed to NAF at aimee@ataxia.org.

Reports/Deliverables

A progress report is required 11 months after the start of the funding term. All awarded applicants are also required to submit a report on key findings and deliverables resulting from the awarded project, as well as a full financial report detailing how grant award funds were utilized, using the ResearchFish online portal. Reports are due within 4 months of completion of the research project. Awardees will receive separate instructions on how to create an account and submit progress reports. Applicants must also update their ResearchFish report once annually for up to 3 years following completion of the research project with any additional sources of funding, publications, patents, or other deliverables that can be attributed in part to the NAF award. The scientific report is reviewed by NAF staff and NAF's Medical Research Advisory Board but is not made public.

NAF Communications

NAF reserves the right to publish the title of each funded grant, name of the principal investigator, and the name and location of the awarded through NAF communication channels, including but not limited to the NAF web page, newsletter, annual report, and social media pages. Lay summaries will also be published in NAF communication channels and, therefore, should not contain any confidential information. All other sections of the grant application are considered confidential and will only be released to members of NAF's Medical Research Advisory Board members, the review committee, NAF staff and NAF Board of Directors.
