For the two SCA Research Programs, a written progress report is also to be submitted six months after the start of the research project. When a paper or exhibit by an awardee, based on the work supported by an NAF grant, is published or presented, all papers, exhibits and press releases shall carry a credit line to the National Ataxia Foundation. Form 990, Part I, Line 1, Description of Organization Mission:
living with Ataxia.

Form 990, Part III, Line 4a, Program Service Accomplishments:

advocacy activities, such as Hill Days, serve to raise awareness about ataxia and policy issues impacting the ataxia community. The annual ataxia conference, and sponsorship and/or participation in national and international meetings, symposiums and seminars also serve to increase ataxia awareness.

The National Ataxia Foundation attempts to locate people and families with hereditary and sporadic ataxia in order to provide them with information about ataxia. This is accomplished by providing updated information about ataxia to the general public by maintaining a website, social media channels, newsletters, and webinars. The Foundation assists individuals and families by identifying clinical resources and making appropriate referrals for neurological care, genetic counseling and gene testing. The Foundation also assists people with locating resources within their own communities, including support groups. The Foundation's network of support groups throughout the country provides families with access to in-person and virtual meeting opportunities.

Form 990, Part III, Line 4b, Program Service Accomplishments:

support basic and translational ataxia research through the following funding mechanisms:

1. Pioneer SCA3 Translational Research Awards: Annually granted to outstanding research proposals that aim to make significant advancements in the development of treatments and/or improvements to patient care for Spinocerebellar Ataxia Type 3 (SCA3). Proposals may incorporate other forms of ataxia but must have a predominant focus on SCA3 translational or clinical research.

2. Seed Money Research Grant: Granted primarily as "seed monies" to assist investigators in the early or pilot phase of their studies and as additional support for ongoing investigations on demonstration of need. It is hoped that these studies will be further developed to attract future funding from other sources.

3. Post-doctoral Fellowship Award: Post-doctoral fellowship awards are to serve as a bridge from post-doctoral positions to junior faculty positions. Applicants should have completed at least one year of post-doctoral training, but not more than two at the time of application and should have shown a commitment to research in the field of ataxia. The award will permit individuals to spend an additional third year in a post-doctoral position and increase chances to establish an independent ataxia research program.

4. Early Career Investigator Award: The Early Career Investigator Award was created to encourage early career clinical and scientific investigators to pursue a career in the field of ataxia research.

5. Pre-doctoral Fellowship to Promote Diversity in Ataxia Research: Merit-based award intended to enhance research and/or clinical training of promising graduate students from historically underrepresented backgrounds who are matriculated in pre-doctoral or clinical health

professional degree training programs and who intend careers as scientists or other clinician-scientists within the field of ataxia.

6. National Ataxia Foundation Graduate Research Fellowship: The National Ataxia Foundation Graduate Research Fellowship is a competitive, non-renewable, merit-based award intended to encourage pre-doctoral students to pursue research and a career in the field of ataxia.

7. NAF Special Grants: Based on the emergent needs of the patient and research community, priority areas of ataxia research may be identified as eligible for specialized grant funding by NAF and may be awarded outside of the annual grant programs.

One of these programs is the NAF Ataxia Brain Tissue Donation Program (In Memory of Carol Tate). NAF has partnered with the University of Maryland Brain and Tissue Bank (UMBTB) to relaunch the Ataxia Brain Tissue Donation Program. Brain tissue helps researchers advance our understanding of ataxia and to develop new therapies. NAF financially supports brain donors from rural and remote communities to donate to the University of Maryland Brain and Tissue Bank.

Form 990, Part III, Line 4c, Program Service Accomplishments:

1. No-cost Genetic Counseling and Testing Initiative: This program provides virtual genetic counseling and testing for individuals at-risk for three of the most common dominant ataxias to members at no-cost to participants. The aim of this program is to help individuals overcome barriers that have historically inhibited wide-spread genetic testing as well as support drug development through expanding the patient population eligible for future clinical trials.

2. Clinical Research Consortium for the Study of Cerebellar Ataxia (CRC-SCA) Natural History Study: The CRC-SCA is one of the longest running and largest natural history studies of spinocerebellar ataxias (SCAs). A natural history study collects data that shows how a specific disease progresses in individuals over time. Natural history studies are essential for developing clinical trial designs that will facilitate drug development. There are over 300 patients enrolled at 16 CRC-SCA sites in the US and Canada. During annual visits, site investigators collect critical clinical data to aid in understanding disease progression and help guide future clinical trial design. Biofluids, such as plasma, serum, and cerebrospinal fluid, are also collected from patients and stored at the NINDS SCA-BRAC biorepository. Both deidentified clinical data and biofluids are available for request from non-participating investigators for approved research projects.
